

Biological Pond Clarifier

UltraClear® Clarifier

Caution: Keep out of the reach of children. Do not ingest. If splashed in eyes, rinse with water for ten minutes. Avoid contact with open wounds. Wash infected skin with soap and water.

UltraClear® Clarifier is the environmentally friendly way to beautify your ponds and fountains. Clarifier works naturally and actually benefits the environment. UltraClear is 100% safe for fish, wildlife, and turf. Clarifier is easy to use. Simply **shake well**, and pour straight from the bottle according to dosage instructions below. **100% Live Bacterial Formulation. Not a Chemical. Non-Toxic and Non-Pathogenic.**

Pond Size in Gallons	Cubic Feet	UltraClear Dosage
Up to 500	Up to 335	3 Cap Fulls/Week
500 to 1000	335 to 670	6 Cap Fulls/Week
1000 to 2500	670 to 1340	1 Ounce/Week
2500 to 5000	1340 to 2675	2 Ounces/Week
5000 to 10,000	2675 to 5350	4 Ounces/Week

Three Great Uses:

Excellent for Spring Prep: Dose according to chart for three consecutive days, then revert to maintenance dose.

Ideal for General Maintenance: Dose according to chart once a week, or as needed.

Treats Problem Ponds: Dose according to chart 2-3 times per week until problem is solved, then revert to general maintenance dose. For ponds over 40,000 gallons or severe problems, use UltraClear SST, specialized for problem ponds.

**Contains Live Bacteria
Do Not Freeze
Store at Room Temperature**
