

Eco-Clear Pressurized Filters

EasyPro Eco-Clear Pressure Filters provide excellent, dual filtration for ponds. Ideal for preformed ponds and small water features needing effective filtration.

New!

**EC1300/
EC1300U**
for ponds up to
1300 gallons

- Sturdy filter housings – can be partially buried up to cleaning ring for easy concealment
- Dual filtration – filter pads collect solid debris while bio-media provides biological filtration
- Optional UV for crystal clear water
- Filters are easy to disassemble and clean, making maintenance a snap!
- Multi-step connectors – inlet/outlet fittings accept a variety of tubing sizes
- Three year warranty

**EC2600/
EC2600U**
for ponds up to
2600 gallons

EC2600 and EC3900 unit bonus features

- Cleaning indicator – shows when filter needs to be cleaned
- Backwash valve to extend time between full cleanouts
- 1 1/2" Adaptor fittings for PVC connections

**EC3900/
EC3900U**
for ponds up to
3900 gallons

Eco-Clear Complete System

Eco-Clear Filters are also available in a complete kit with our new Eco-Clear Pumps. It's complete pond filtration made simple.

EC2600U	115V 60Hz	18W	16 ft.	2600 gallons without fish			21.26" x 14.92" x 18.43"
EC3900	/	/	/	1950 gallons with fish	1", 1 1/4", 1 1/2" Step barb fitting (3) 1 1/2" Adaptor fitting for PVC (3)	3900 gph	21.26" x 14.92" x 21.73"
EC3900U	115V 60Hz	24W	16 ft.	3900 gallons without fish			21.26" x 14.92" x 22.68"

*Fish load, feeding rates, amount of sunlight and other factors affect actual maximum gallons filtered.

Dirty pond water enters the pressurized filter.

Water is pushed through multiple densities of foam filters and cleaned of solid debris.

Water is pushed through bio-media that provides excellent biological filtration.

Select units have high-intensity UV lights that destroy algae cells, eliminating green water.

Cleaned water is returned to your pond.
